EXTRAMET

WE LIVE FOR CHALLENGES

Mission statement

The goal of our company is to manufacture products that provide the highest benefit for our customers.

We will achieve this goal in a sustainable way:

- We constantly strive to develop our capabilities in terms of the requirements placed upon us and make the best use of them by working together in a results-oriented, collegial manner.
- We ensure the highest possible safety standards and work carefully with the available resources and our environment.
- We measure the performance of our suppliers using the same benchmarks that we apply to our own products.
- We ensure our continued independence by meeting the reasonable expectations of our owners.

Continuous development and improvement ensure that we are able to meet the future requirements of our customers as a solution partner, and take a leading position in the market.
